CONTENTS

	Foreword	vii
Chapter 1.	Forbidden muon decays A. VAN DER SCHAAF	1
Chapter 2.	Rare decays of muons and kaons as a probe of new fundamental symmetries of nature R. N. MOHAPATRA	39
Chapter 3.	A chiral confining model of the nucleon M. K. BANERJEE	77
Chapter 4.	Theoretical description of particle production in heavy-ion reactions at intermediate energies G. Q. LI, A. FAESSLER and S. W. HUANG	159
Chapter 5.	Response to the report of the transfermium working group "Discovery of the transfermium elements" A. GHIORSO and G. T. SEABORG	233
Chapter 6.	Response to the report of the transfermium working group YU. TS. OGANESSIAN and I. ZVARA	239
Chapter 7.	Response to the report of the transfermium working group P. ARMBRUSTER, F. P. HEßBERGER, S. HOFMANN, M. LEINO, G. MÜNZENBERG, W. REISDORF and K.-H. SCHMIDT	241
